Berenberg Euro Bonds M A

Actively managed fixed income fund

Investment Strategy

The Berenberg Euro Bonds consists primarily of fixed and floating rate bonds from investment-grade issuers. The portfolio management invests worldwide with a focus on Europe. In addition to government bonds and covered bonds, investments are also made in corporate and financial bonds. The investment ratio depends on the relative attractiveness of the bond segments, but should be at least 80%. As a rule, there is an active duration management. Active approach, i.e. index weights have no influence on individual stock selection.

Fund management comment

The strong new issuance activity seen in 2025 continued in November. With a volume of over €90 billion, the five-year average for this month was significantly exceeded. New issuance activity by US issuers in euros also continued. In November, Alphabet was among those active with a new issue of €6.5 billion. In total, US issuers have now raised €154 billion on the European credit market in 2025, significantly more than the €99 billion until November in the previous year. Yields on 10-year German government bonds rose by around six basis points to 2.69% over the course of the month. Risk premiums for euro IG corporate bonds also widened by six basis points, but remain at a low level.

Opportunities:

- Asset preservation, primarily achieved through interest income
- Stabilization of assets in negative capital market phases through professional risk management and intelligent diversification
- Improvement of the risk/return profile through active management across all bond segments

Risks

- Fluctuations in value due to interest rate risks
- Price losses possible in individual stock market years
- Currency losses due to exchange rate fluctuations
- Limited participation in positive performance of individual bond segments due to broad diversification and negative selection effects in individual security and fund selection

Further details on the opportunities and risks of this fund can be found in the sales prospectus.

As a marketing communication this document does not meet all legal requirements to warrant the objectivity of investment recommendations and investment strategy recommendations and is not subject to the ban on trading prior to the publication of investment recommendations and investment strategy recommendations. This document is intended to give you an opportunity to form your own view of an investment. However, it does not replace a legal, tax or individual financial advice. Your investment objectives and your personal and financial circumstances were not taken into account. We therefore expressly point out that this information does not constitute individual investment advice. Any products or securities described may not be available for purchase in all countries or only in certain investor categories. This information may only be distributed within the framework of applicable law and in particular not to citizens of the USA or persons resident in the USA. The statements made herein have not been audited by any external party, particularly not by an independent auditing firm. Any future returns on fund investments may be subject to taxation, which depends on the personal situation of the investor and may change in the future. Returns on investments in foreign currencies may increase or decrease due to currency fluctuations. The purchase, holding, conversion or sale of a financial instrument, as well as the use or termination of an investment service, may give rise to costs that affect the expected income. In the case of investment funds, you should always make an investment decision on the basis of the sales documents (key information document, presentation of past performance, sales prospectus, current annual, if applicable, semi-annual report), which contain detailed information on the opportunities and risks of the relevant fund. An investment decision should be based on all characteristics of the fund and not just on the sustainability-related aspects. Sustainability related disclosures can be found at www.berenberg.de/en/esg-investments. In the case of securities for which a securities prospectus is available, investment decisions should always be made on the basis of the securities prospectus, which contains detailed information on the opportunities and risks of this financial instrument, otherwise at least on the basis of the product information document. A fund investment involves the purchase of shares in an investment fund, but not a specific underlying asset (e.g. shares in a company) held by that fund. The fund is subject to increased volatility as a result of its composition/the techniques used by Fund management; therefore, unit prices may increase or decrease significantly within short periods of time. All the aforementioned documents can be obtained from Joh. Berenberg, Gossler & Co. KG (Berenberg), Überseering 28, 22297 Hamburg, Germany, free of charge. The fund sales documents and the product information sheets for other securities are available via a download portal at the Internet address productdocumentsuite.berenberg.de/en. The sales documents of the funds can also be requested from the respective investment management company. We will be pleased to provide you with the specific address details upon request. The information given can become incorrect due to the passage of time and/or as a result of legal, political, economic or other changes. We do not assume responsibility to indicate such changes and/or to publish an updated document. Please refer to the online glossary at <https://www.berenberg.de/en/glossary/> for definitions of the technical terms used in this document.

For investors in Brazil: The shares in the fund may not be offered or sold to the public in Brazil. Accordingly, the shares in the fund have not been nor will be registered with the Brazilian Securities Commission - CVM nor have they been submitted to the foregoing agency for approval. Documents relating to the shares in the fund, as well as the information contained therein, may not be supplied to the public in Brazil, as the offering of shares in the fund is not a public offering of securities in Brazil, nor used in connection with any offer for subscription or sale of securities to the public in Brazil.

Sector Allocation by GICS Sector distribution by GICS: The Global Industry Classification Standard ("GICS") was developed by and is the exclusive property and a service mark of MSCI Inc. ("MSCI") and Standard & Poor's, a division of the McGraw-Hill Companies, Inc. ("S&P") and is licensed for use by Joh. Berenberg, Gossler & Co. KG. Neither MSCI, S&P nor any third party involved in making or compiling the GICS or any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability and fitness for a particular purpose with respect to any of such standard or classification. Without limiting any of the foregoing, in no event shall MSCI, S&P, any of their affiliates or any third party involved in making or compiling the GICS or any GICS classifications have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

BVI method: The charts and tables regarding performance shown here are based on own calculations according to the method developed by the German Investment Funds Association (BVI). They illustrate past performance. Future performance can deviate both positively and negatively from these calculations. Gross performance (BVI method) takes into account all charges at fund level (e.g. management fee), net performance plus the issue surcharge. As no issue surcharge is incurred for this share class the gross performance corresponds to the net performance. Additional charges can arise for individual investors (e.g. custody account fees, commissions and other fees). Also, fees may be charged for the administration of the safe custody account, which will lower the performance. Past performance is not a reliable indicator of future performance.
